

# Cassette 400/600 LED

Optimyst®

The Cassette 400/600 inset fire unit not only surprises with its free floating flame and smoke effect, its modest size and variable flame intensity make it highly suitable for 'endlessly' creative interior solutions: placed as a single unit in a table or inside a gas or wood fireplace, or as a line of fire by simply putting several units alongside each other. The only connection you need is 230V. Just fill the reservoir with fresh water and click on the remote for hours of cozy ambiance, over and over again.

## USP's

- Ideal for creative projects, to be installed in furniture or used for other decorative purposes
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- View of the fire from 4 sides
- Newly developed with LED lights for lower power consumption with a longer service life
- Log set available as an accessory

## Cassette with log set
