

# Freestanding

A freestanding fire is (often literally) the focal point of a room. A place to gather round! Obviously you simply expect the best in every respect. Faber freestanding fires are for demanding enthusiasts. The fire effect is comparable to that of our beloved gas inset fires; full flames at any height, decorated with lifelike decorative logs or white pebbles. Always simple to operate and equipped with the latest technology. The design impresses with its simplicity and careful finish and suits a range of interior designs.

Faber freestanding fires are available in different versions; standing or suspended, with standing or horizontal logs, with three-sided panes, or just a pane at the front. That means plenty of variations, and you can choose what suits your taste and interior. The Faber specialist is there for you throughout the entire process!

Did you find your favourite Faber fire? It will be built, set and tested by Faber, specifically for you, before we deliver it to the Faber specialist who will install it in your home.
